Improving patient care – Supporting
resilient health systems

7 December 2021

European
Alliance for
Value in Health

The European Alliance for Value in Health is a group of associations representing stakeholders active in the broader European health systems

Associated partners

The Alliance aims to accelerate the transformation towards value-based, sustainable and people-centred health systems in Europe

The Alliance will
COLLABORATE to
CONNECT different
stakeholders to
CREATE conditions
and **INSPIRE** others

The **VISION** of the Alliance for Value in Health is a Europe, where health systems are value-based, sustainable, and people-centred

Our **MISSION** is to partner to facilitate health system transformation, by disseminating knowledge and best practices, and engaging with policy makers and stakeholders – at European, national, and regional levels

How do we organise and purchase healthcare?

Input-based/static

Outcomes-based/dynamic

The six principles for value-based, sustainable and people-centred health systems

Outcomes that matter to people and patients, as well as benefits valued by health systems and societies, are at the centre of decision-making

Interventions and services addressing prevention¹, social care and healthcare are organised in an integrated way around people and patients

Resources are allocated towards high value care and prevention, with outcomes and costs of care measured holistically

Innovative ways of care delivery are fostered

Continuous learning, education and healthcare improvement is based on evidence, and supported by data and insights

Financing models and payments reward value and outcomes

1. Including primary, secondary, and tertiary prevention

Outcomes that matter to people and patients, as well as benefits valued by health systems and societies, are at the centre of decision-making

- ✓ Awarding criteria in procurement

Interventions and services addressing prevention, social care and healthcare are organised in an integrated way around people and patients

- ✓ Guiding purchasing strategies
- ✓ Integrated solutions

Resources are allocated towards high value care and prevention, with outcomes and costs of care measured holistically

- ✓ Looking at costs throughout the lifecycle and across budget silos
- ✓ Consideration of long-term savings from reduced complications, hospitalisations etc
- ✓ Most economically advantageous solution for health systems over time

Innovative ways of care delivery are fostered

- ✓ Procurement should enable uptake of innovative solutions and models of care delivery

Continuous learning, education and healthcare improvement is based on evidence, and supported by data and insights

- ✓ Partnerships for data and evidence generation included in the concept from start

Financing models and payments reward value and outcomes

- ✓ Value-based procurement
- ✓ Outcomes-based contracts
- ✓ Risk sharing agreements and partnerships
